Product Performance Analysis

Sales Function Performance

Revenue Analysis

About This Dashboard :

- This Power BI report analyzes Revenue, Growth, and Targets across Regions, Product Clusters, Channels, and time periods.
- It highlights Key Trends, Target Achievement percentage, Average Margins, Seasonal Surges, Total Volumes and Channel performance using interactive visuals.
- This Dashboard enables quick analysis of regional revenue gaps, product mix velocity, supply constraints, and baseline operational projections across States and commercial segments.
- Tracking dynamic multi-currency conversions (INR/USD), inventory shortage indexes, and product hierarchy matrices designed to support data-driven corporate bank decisions with clear and actionable insights.
